**Report:**

Our work is going on well in our all centers. Our teachers are working well and also they are keeping punctuality in their centers. We had discussed with our teachers about annual examination, how to make them ready to conduct the examination without any fear, and score high marks. As usually we had conducted G.K training & special discussion about any good subject to develop our students I.Q (Intelligent quotient) skills on every visiting .But we stopped it. Because our students wanted times to prepare for annual examination. We have taught some subjects which is important for the students. (Mathematics, science and English). In summer holidays our teacher will work to increase our student's strength and find out dropout students to help them to continue their education. And we discussed with students to spend the holidays usefully (Like computer education, Spoken English classes)
