### **Report:**

Our aims teachers were working well in our schools regularly. Our all teachers take special care to improve educational skills for poor students in their schools. Our teachers (**T.Pushba bai & M.Josephin punitha**) have conducted evening study classes in their school as usually. Because of quarterly exams I have visited these school 19 times in this month .And I have conducted special discussion about Madras eyes on my second visit of our schools (Conjunctivitis epidemic).

I found that so many students were affected by highly contagious eye disorder. So I had discussed with students to avoid their fear. Students were fear too. I talked with our teachers to take care of children, if they find any symptoms of Madras eyes. And I gave them the details about Madras eyes .Usually; it comes as an epidemic from time to time infecting thousands and thousands of people irrespective of sex and age. People would be susceptible to it with its highly contagious nature. It spreads rapidly with contact. Usually, it is less virulent in children unless otherwise the eyes are rubbed more. Querterly vocation startd from 26/9/09.Schools reopens on 05/10/09

Alanchi High School Correspondent Mr. Densing requested us to conduct training for their students. So I conducted training for the students on 13-9-09 and 20-09-09.More of two hundred students attended in the trainings. I & Deejo had conducted the second training on 20-09-09.
