

Aims India

SCHOOL TEACHING ASSISTANCE PROJECT

Monthly Report

Project no: 2

Reporting month: July 2010

Reporting date: 01/08/2010

PROJECT TITLE: Aims School Teaching Assistance Project

Report:

AIMS teachers are taking special care to improve educational skills for poor students in their schools as regularly. Our teachers had worked twenty two days in this month. T. Pushba bai and M. Josephine Punitha are conducting evening study classes in their schools (Government middle school, Near Register office, Colachel) as usually. We are working in government school only. Now we are working in 14 schools .16 teachers & more of 1000 students are benefited by AIMS INDIA.

We (Mr.Deejo & I) had conducted the monthly planning meeting in my home on 30/07/2010 .In this day we had planned to conduct training continuously about **Ecology & Environmental science as usually.**

Based upon our monthly planning, I gave a lecture to the students on **Ecology** about natural disaster (Flood) in this month.

More of 800 students were attending in the training in their schools (Average 40 students in a school). We will continue our work in our schools as well as possible

The training subjects (Titles) is listed below

Flood in India

1. What is Flood?

A **flood** is an overflow of an expanse of water that submerges land.

2. Which places are affected by flood in India?

3. Prevention from heavy loss of life and property

India receives an annual rainfall of 400 million hectare meters. 75 per cent of the annual rainfall is received during monsoon (from June to September) and, as a result almost all the rivers carry heavy discharge during these four months.

Flood conditions emerge due to the inadequate capacity of the rivers to contain the high flow brought down from the upper catchments due to heavy rainfall. Accumulation of water resulting from heavy spells of rains over areas with poor drainage system can also cause flooding. The heavy precipitation comes with the problems of sediment deposition, drainage, congestion and synchronization of river floods with sea tides in the coastal areas.

Flood situation arises in India almost every year and hence it is important to prepare for a disaster in advance. Floods displace a number of people and cause heavy loss of life and property. The economy also gets affected due to damage of crops directing affecting the agriculture sector. The country needs a better and effective flood mitigation system to ensure the safety of its people and economy.

Monthly Visiting & training Details of our schools are listed below

Center: 1

School name	Government Primary school Main Road, Near check Post Kazhiyakkavilai, Kanyakumari district
Established on	1952
Name of H.M	P. Paulraj
Paid Teachers	3 (Including H.M)
Unpaid Teachers	1
Name of Unpaid teachers	A. Jolin
Total Teachers of the school	4
Name of Aims India teacher	A. Jolin
Method of teaching	Activity basic learning
Teaching Subjects	Tamil, Malayalam, English, Mathematics, Science and social studies
Special Activity	Special care for below average students in education
Working Days	22
Working hour	154(22*7)
Total Number of students	112
