

# Aims India

## SCHOOL TEACHING ASSISTANCE PROJECT

### Monthly Report

**Project no: 2**

**Reporting month: March 2010**

**Reporting date: 05/04/2010**

**PROJECT TITLE:** Aims School Teaching Assistance Project

### Report:

AIMS teachers are taking special care to improve educational skills for poor students in their schools as regularly. Our teachers had worked twenty one days in this month. T. Pushba bai and M. Josephine punitha are conducting evening study classes in their schools (Government middle school, Near Register office, Colachel) as usually.

We (Mr.Deejo & I) had conducted the monthly planning meeting in my home on 01/04/2010 .In this day we had planned to conduct training continuously about **Ecology & Environmental science as usually.**

Based upon our monthly planning, I gave a lecture to the students on **Ecology & plastic awareness** (in easy teaching way method) in this month. Much plastic waste has accumulated in our land. Our public is not aware of the harmful effects of pollution from plastics and medical wastes have been infected with many diseases and general ill-health

stemming from weakened immune systems. So we had planned to conduct a training to make awareness of plastic.

Our work will help our students to make aware of the benefits of using less plastic. More of 310 students were attending in the training in their schools (Average 40 students in a school). We will continue our work in our schools as well as possible.

**The training subjects are listed below**

- 1 Disadvantages of plastic bags.** (Most plastic bags are harmful to the environment.)
- 2. Recycling plastics**
- 3. Managing our home waste**

**Monthly Visiting & training Details of schools:**

**Center: 1**
