PROJECT TITLE: Aims School Teaching Assistance Project

Report: Because of the summer vocation I could not conduct any training in our schools. But our AIMS school teachers had helped with other teachers to increase the students' strength and continue the dropout students' education in summer vocation. Increasing the students in government school is very risk & unavoidable work for government teachers.

So I had planed to work with teachers to increase the students' strength in our schools. Based upon my plan I had worked with our teachers .Really that was a good chance to meet the parents of our students. I had discussed with the parents about student's educational development & our help. Already they knew our help. So they welcomed us and appreciate our works. Our teachers had worked hardly with others. Our Schools are reopened on 02/06/2010.After this day our work will continue as usual.
