

Aims India

SCHOOL TEACHING ASSISTANCE PROJECT

Monthly Report

Project no: 2

Reporting month: April 2010

Reporting date: 03/05/2010

PROJECT TITLE: Aims School Teaching Assistance Project

Report:

AIMS teachers are taking special care to improve educational skills for poor students in their schools as regularly. Our teachers had worked twenty two days in this month. T. Pushba bai and M. Josephine Punitha are conducting evening study classes in their schools (Government middle school, Near Register office, Colachel) as usually. Our schools closed on 30/4/2010. These Reopens on 1/6/2010. On summer vocation our school teachers will help with other teachers to increase the students' strength and continue the dropout students' education.

We (Mr. Deejo & I) had conducted the monthly planning meeting in my home on 02/05/2010. In this day we had planned to conduct training continuously about **Ecology & Environmental science as usually.**

Based upon our monthly planning, I gave a lecture to the students on **Ecology & Environmental science**. The effect of the global warming (in easy teaching way method) in this month. Our work will help our students to make awareness.

Increasing a temperature of the earth surface is enough to cause disastrous natural calamities. The effects of global warming are dangerous and severe and finally results in serious effects to the human population.

The global warming issue at hand is climate change, and it has literally and figuratively taken every corner of our world by storm. People are increasingly aware that this environmental threat could be the defining issue of our time.

Hundreds of politicians, National leaders, scientists have discussed, debated and even come to agree on possible solutions armed with which we might stand and face its impending challenge. With the proper resources and guidance, our global inspired community will solve the problem.

On this way we are doing something what can we do. More of 326 students were attending in the training in their schools (Average 40 students in a school). We will continue our work in our schools as well as possible

The training subjects are listed below

1. Global warming –A warning

(Temperature changes, Greenhouse gases, solar variation, Sea level rise, Desert land increasing, the melting glacier, Extreme weather, Changes in agricultural (Yields decreasing)

2. Our work against Global warming

(Work to reducing Green house gases emissions, Making awareness in our aria, avoid plastic, Helping to forestation, Taking steps against deforestation)
