Colachel,

Pin 629251

**Subject:** 100 Lunch Plates were donated by AIMS INDIA for poor school students

One hundred and two students are studying in this school. Parents of the students are roofing workers. They have not sufficient income and regular work. We are also paying a teacher's salary in this school on AIMS SCHOOL TEACHING ASSISTANCE PROJECT. I watched their lunch at my every training in this school. Our students were using damaged plates at that time. Some students brought plates from home. But those plates were also damaged. Mr. Joseph had visited this school on last year. The Headmistress requested him to give 100 lunch plates for this school. And she gave a request letter to Aims India to give 100 plates. Mr. Joseph had sent the request letter to AIMS INDIA. Aims India decided to give one hundred plates to this school. Mr. Joseph instructed us to donate 100 lunch plates to the school on 2/7/2010. The cost of the plates is RS 4500 (RS 45 per a plate). This school H.M, teachers, and member of P T A ( Parents & Teachers association) had arranged a program for it. We had participated in the program.

More of twenty parents welcomed us. The program was started at 11 am. The function was well attended by around 150 peoples including students, parents and teachers. Inaugural address was delivered by Mr. Babu (The Precedent of P T A).

Then Mr. Kannan (The Secretary of P T A) addressed the gathering of the special function after a warm welcome. Then I spoke about the need and important of education. Mr. Deejo spoke about child rights in the program. We donated 100 lunch plate to this school in the program. And also we had a best lunch with students.

We spent five hours with students in this school. Headmistress, Teachers, P.T.A Members, Parents and Students appreciated our work. The program came to end with vote of thanks with National Anthem by Headmistress Mary Joice at 4 pm. Our students are very happy to use new lunch plates. We have selected a House Keeping team to manage these plates well. Our aims teacher will lead the team.

Simply we are doing our work on the right way.
