## Report:

Our aims teachers were working well in our schools regularly. Our all teachers had conducted special evening study classes in their schools to make ready the students to develop the students educational skills and get high marks.. I have visited these school 21 times in this month and I have conducted special discussion named Save & Care our Herbals in my first visiting of our all schools.

Before some years we could found some Neem trees in our streets .And also we had felt the Neem breeze (Herbal Breeze)But now days there is very rare to find out any neem trees in our street. So we had planed to conduct the discussion about Neem trees, usages of Neem trees and its medical uses. We think that our students must know about our herbals. We will conduct a discussion abut ginger on next month. In my second & third visit I had conduct a special training to conduct the exam very easily.

The students asked some doubts in their subject .So I had taught some important lesson in their subjects.
