Report:

To be precise and honest, there has been a constant progress in our project, perhaps it means the work we are doing. On the other hand educational improvisations doesn't merely help a student to improve his/her extracurricular activities, therefore there has risen a necessity to inculcate the habit of having healthy competition among students. This has already been discussed in the last report. On the contrary we also would like to bring to your kind notice the necessity of regular staff meetings which will help as to communicate decision taken in an appropriate time.

We are also happy to inform you that knowing about our good work, there are a few other villages who have requested us to carry forward our work to their villages as well. Moreover there has been an enormous improvement in new admission in certain villages which might likely result in appointing new staff for the particular villages

Our aims teachers were working well in our schools regularly. Our all teachers are taking special care to improve educational skills for poor students in their center. Our teachers requested me to conduct training to students. I have visited several times in our center.
