

AIMS INDIA

Kanniyakumari Chapter

Reporting month: July

Reporting Date: 02/08/2010

District: Kanyakumari

Staff: Deejo john

Project: 1

Project Name: AIMS Student Development Center

Aim of the Project: Developing students skill

Report:

AIMS teachers are taking special care to improve educational skills for poor students in their center as regularly. Our teachers had worked twenty two days in this month

We (Mr.Azath & I) had conducted the monthly planning meeting in my home on 30/07/2010 .In this day we had planned to conduct training continuously about **Ecology & Environmental science as usually**. Based upon our monthly planning, I gave a lecture to the students on **Ecology** about natural disaster (Flood) in this month.

More of 500 students were attending in the training in their schools (Average 40 students in a center). We will continue our work in our schools as well as possible

The training subjects (Titles) is listed below

Flood in India

1. What is Flood?

A **flood** is an overflow of an expanse of water that submerges land.

2. Which places are affected by flood in India?

3. Prevention from heavy loss of life and property

India receives an annual rainfall of 400 million hectare meters. 75 per cent of the annual rainfall is received during monsoon (from June to September) and, as a result almost all the rivers carry heavy discharge during these four months.

Flood conditions emerge due to the inadequate capacity of the rivers to contain the high flow brought down from the upper catchments due to heavy rainfall. Accumulation of water resulting from heavy spells of rains over areas with poor drainage system can also cause flooding. The heavy precipitation comes with the problems of sediment deposition, drainage, congestion and synchronization of river floods with sea tides in the coastal areas.

Flood situation arises in India almost every year and hence it is important to prepare for a disaster in advance. Floods displace a number of people and cause heavy loss of life and property. The economy also gets affected due to damage of crops directing affecting the agriculture sector. The country needs a better and effective flood mitigation system to ensure the safety of its people and economy.

Sl.No	Center Name	Staff Name	No of students	No working days	Working hours (avg)
1	muttom	Kevin	110	20	46
2	kodimunai	Manju	40	22	51
3	Manakudy	Pramila	35	21	48.5

Activities of aims staffs

Monthly Visit Details:

1. Muttom

Our Teacher kevin is working well in this center. She is also taking special care to improve the students' educational skills. This center is situated in coastal area. There are 2000 families in the same village. Fishing is the basic and normal work of the males of the village. Women who are married house wife mostly. More of 100 students are there in the center. I too request you to appoint two teachers since there are more than 100 students it is very difficult to manage to all. I visited this center on **04, and 30-07-10**. And I had conducted ecology trainings in this center.

2. Kodimunai

Our Teacher manju is working well in this center. She is also taking special care to improve the students' educational skills. More than 35 students are there in the center. I visited this center on **5, and 31-07-10**. And I had conducted ecology trainings in this center.

3. Manakudy

Our Teacher pramila is working well in this center. She is also taking special care to improve the students' educational skills. I visited this center on **01, and 26-06-10**. And I had conducted ecology and G.K trainings in this center.

4. Enayam Puthanthurai

Our Teacher Sibi is working well in this center. She is also taking special care to improve the students' educational skills. This center is situated in coastal area. There are 1500 families in the same village. Fishing is the basic and normal work of the males of the village. Women who are married house wife mostly. More of 100 students are there in the center. I too request you to appoint two teachers since there are more than 100 students it is very difficult to manage to all. I visited this center on **2, and 27-06-10**. And I had conducted ecology and G.K trainings in this center.

5. Cheruvallur

Our Teacher Femi John is working well in this center. She is also taking special care to improve the students' educational skills. I visited this center on **5, and 23-07-10**. And I had conducted ecology and G.K trainings in this center.

6. Devicode

Our Teacher Annie clementine is working well in this center. She is also taking special care to improve the students' educational skills I visited this center on **6, and 24-07-10**. And I had conducted ecology and G.K trainings in this center.

7. Alancholai

Our Teacher Sheba is working well in this center. She is also taking special care to improve the students' educational skills I visited this center on **9, and 21-07-10**. And I had conducted ecology and G.K trainings in this center.

8. Kanal karai

Our Teacher Anisha is working well in this center. She is also taking special care to improve the students' educational skills I visited this center on **7, and 22-07-10**. And I had conducted ecology and G.K trainings in this center.

9. Enayam

Our Teacher Jose is working well in this center. She is also taking special care to improve the students' educational skills I visited this center on **10, and 19-07-10**. And I had conducted ecology and G.K trainings in this center.

10. Devashahayam mount

Our Teacher Devashahayam is working well in this center. She is also taking special care to improve the students' educational skills I visited this center on **10, and 19-07-10**. And I had conducted ecology and G.K trainings in this center. **14, and 28-07-10**.
