**Report:**

**Our work is going on well in our all centers. Our teachers are working well and also they are keeping punctuality in their centers. Because of heavy rain of this area, the teachers could not conduct the classes regularly. The flood condition was very bad in these places on the second week of this month. So the students did not attend our classes regularly. So we had conducted a special discussion about awareness of natural disaster. We suggested the students to keep clean their surrounding and drink only hot water.**
